

Substantial Comparability Placement

Case based Discussion assessment – Declaration that Patient Consent has been obtained

Candidate

CbD

Patient consent must be obtained **before** the case summaries and this declaration are submitted to the College. Please notify the SCARP and your supervisor if there are any difficulties in obtaining patient consent.

Case summaries should be de-identified and labeled with a unique code (e.g. EM 24/06/2015), and must be submitted with this form to the College at least two weeks prior to your Case based Discussion assessment.

Case 1

Case 2

Case 3

I confirm that for each of these three case summaries I have obtained a completed "Patient information sheet and consent form" from the patient or relevant carer.

I understand that my Assessor must sight the completed forms, signed by the patient and candidate, and that my assessment will not proceed if I fail to provide these forms at the time of my Case based Discussion assessment.

Signed

Date

Please return this form by email to comparability@ranzcp.org with the case summaries you are submitting for your upcoming Case based Discussion assessment.
